

# Sustainability

## The current status in corporate travel

A glance at sustainability in corporate travel programs (EMEA)

We asked 700 senior corporate travel managers across 12 EMEA countries on the impact of COVID-19 on corporate travel and sustainability initiatives.

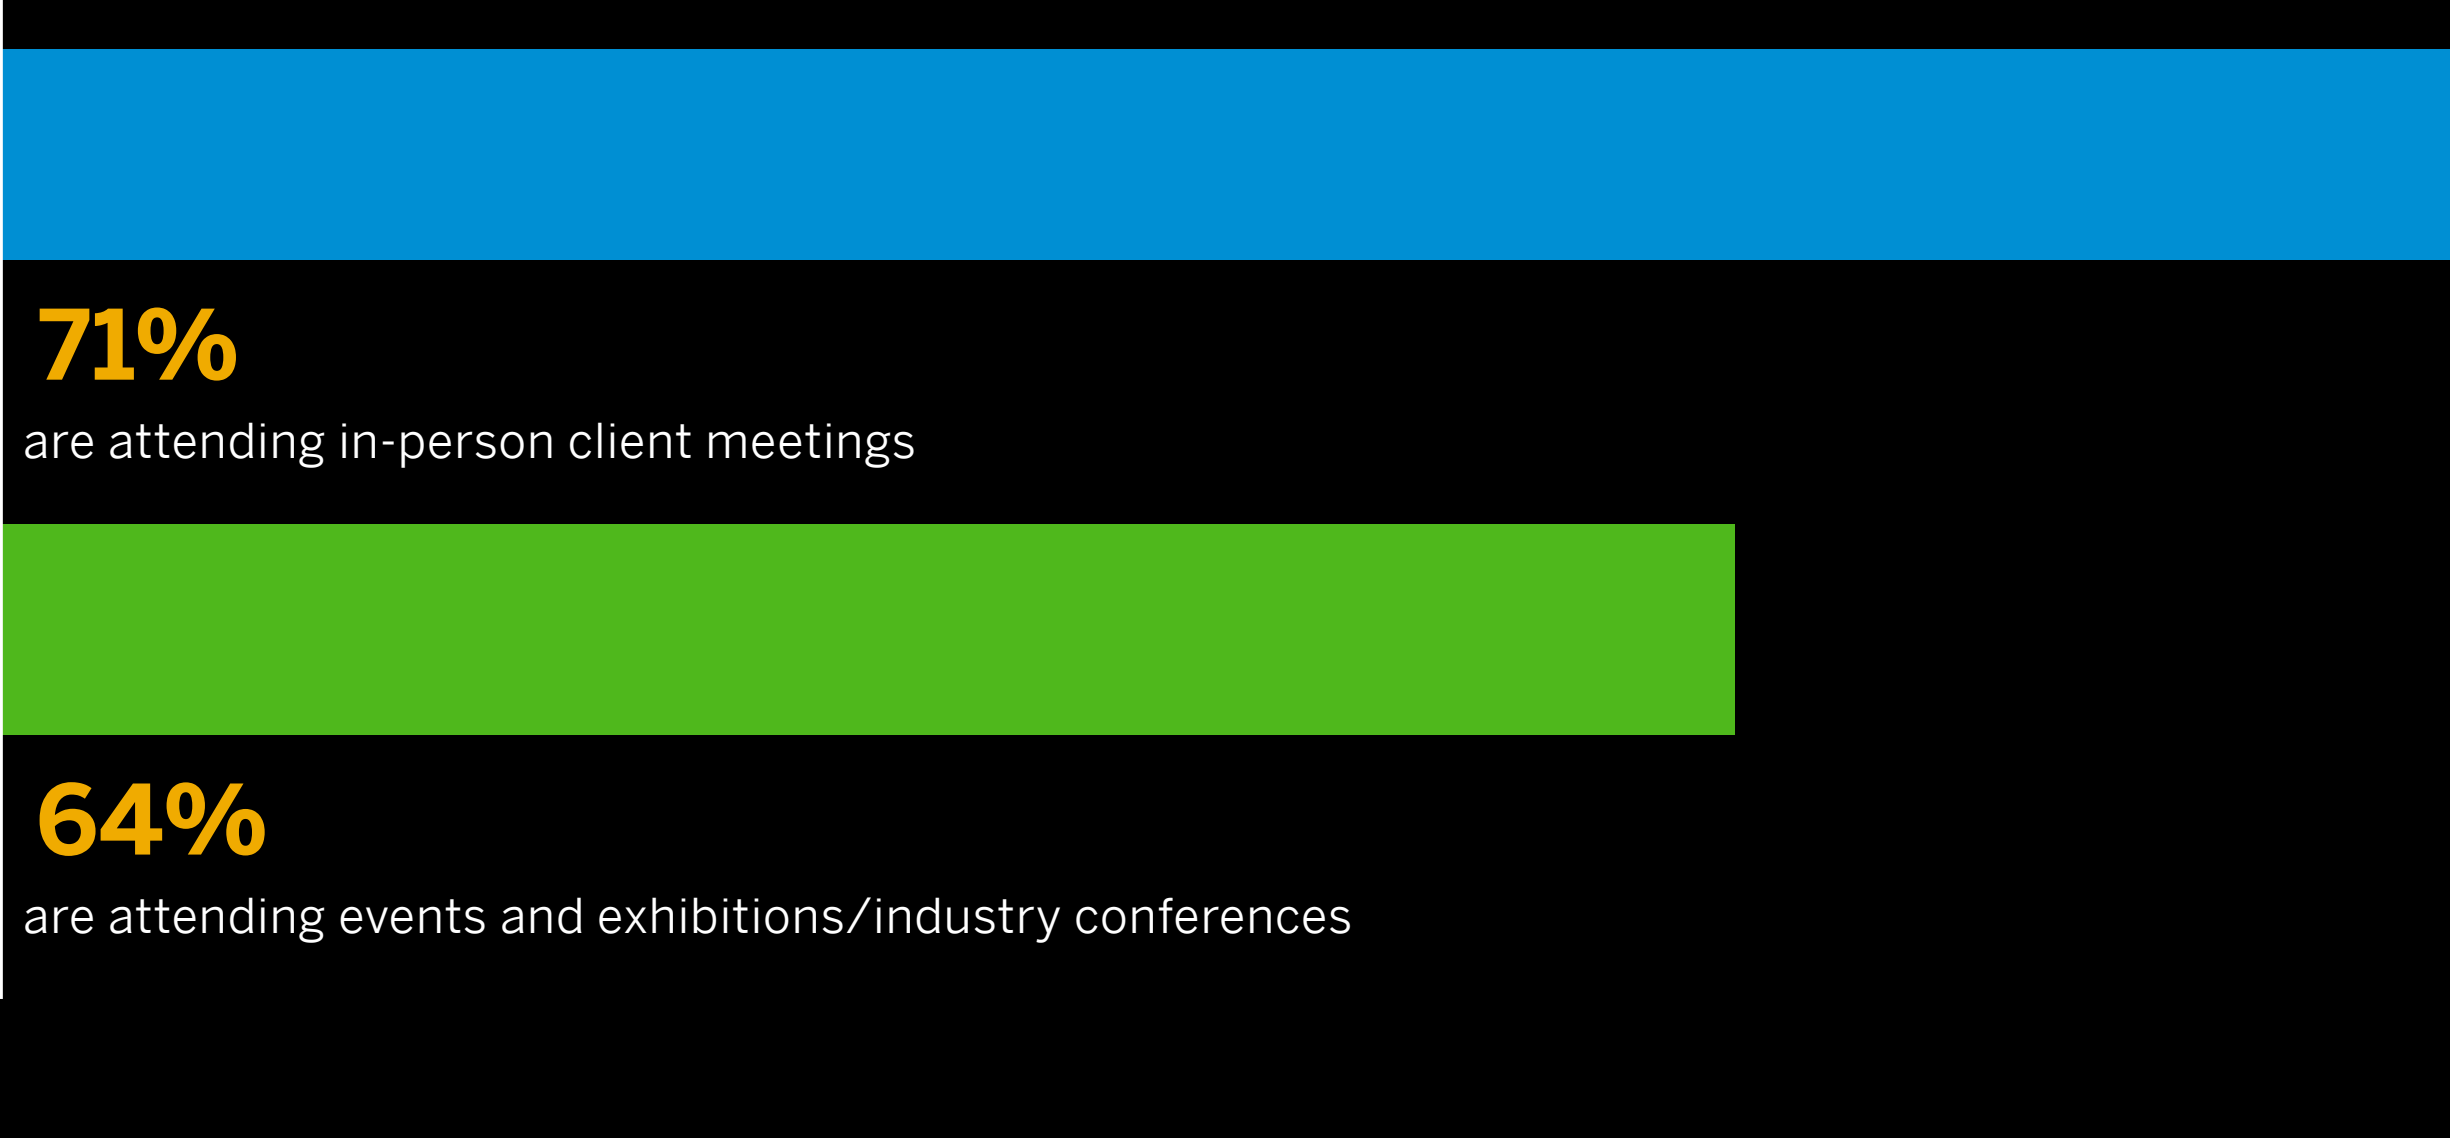

Scroll down to see what they had to say.

### Corporate travel behaviour is changing

Domestic and International corporate travel is picking up to pre-pandemic levels

### And the importance of face-to-face meetings to drive business has re-emerged

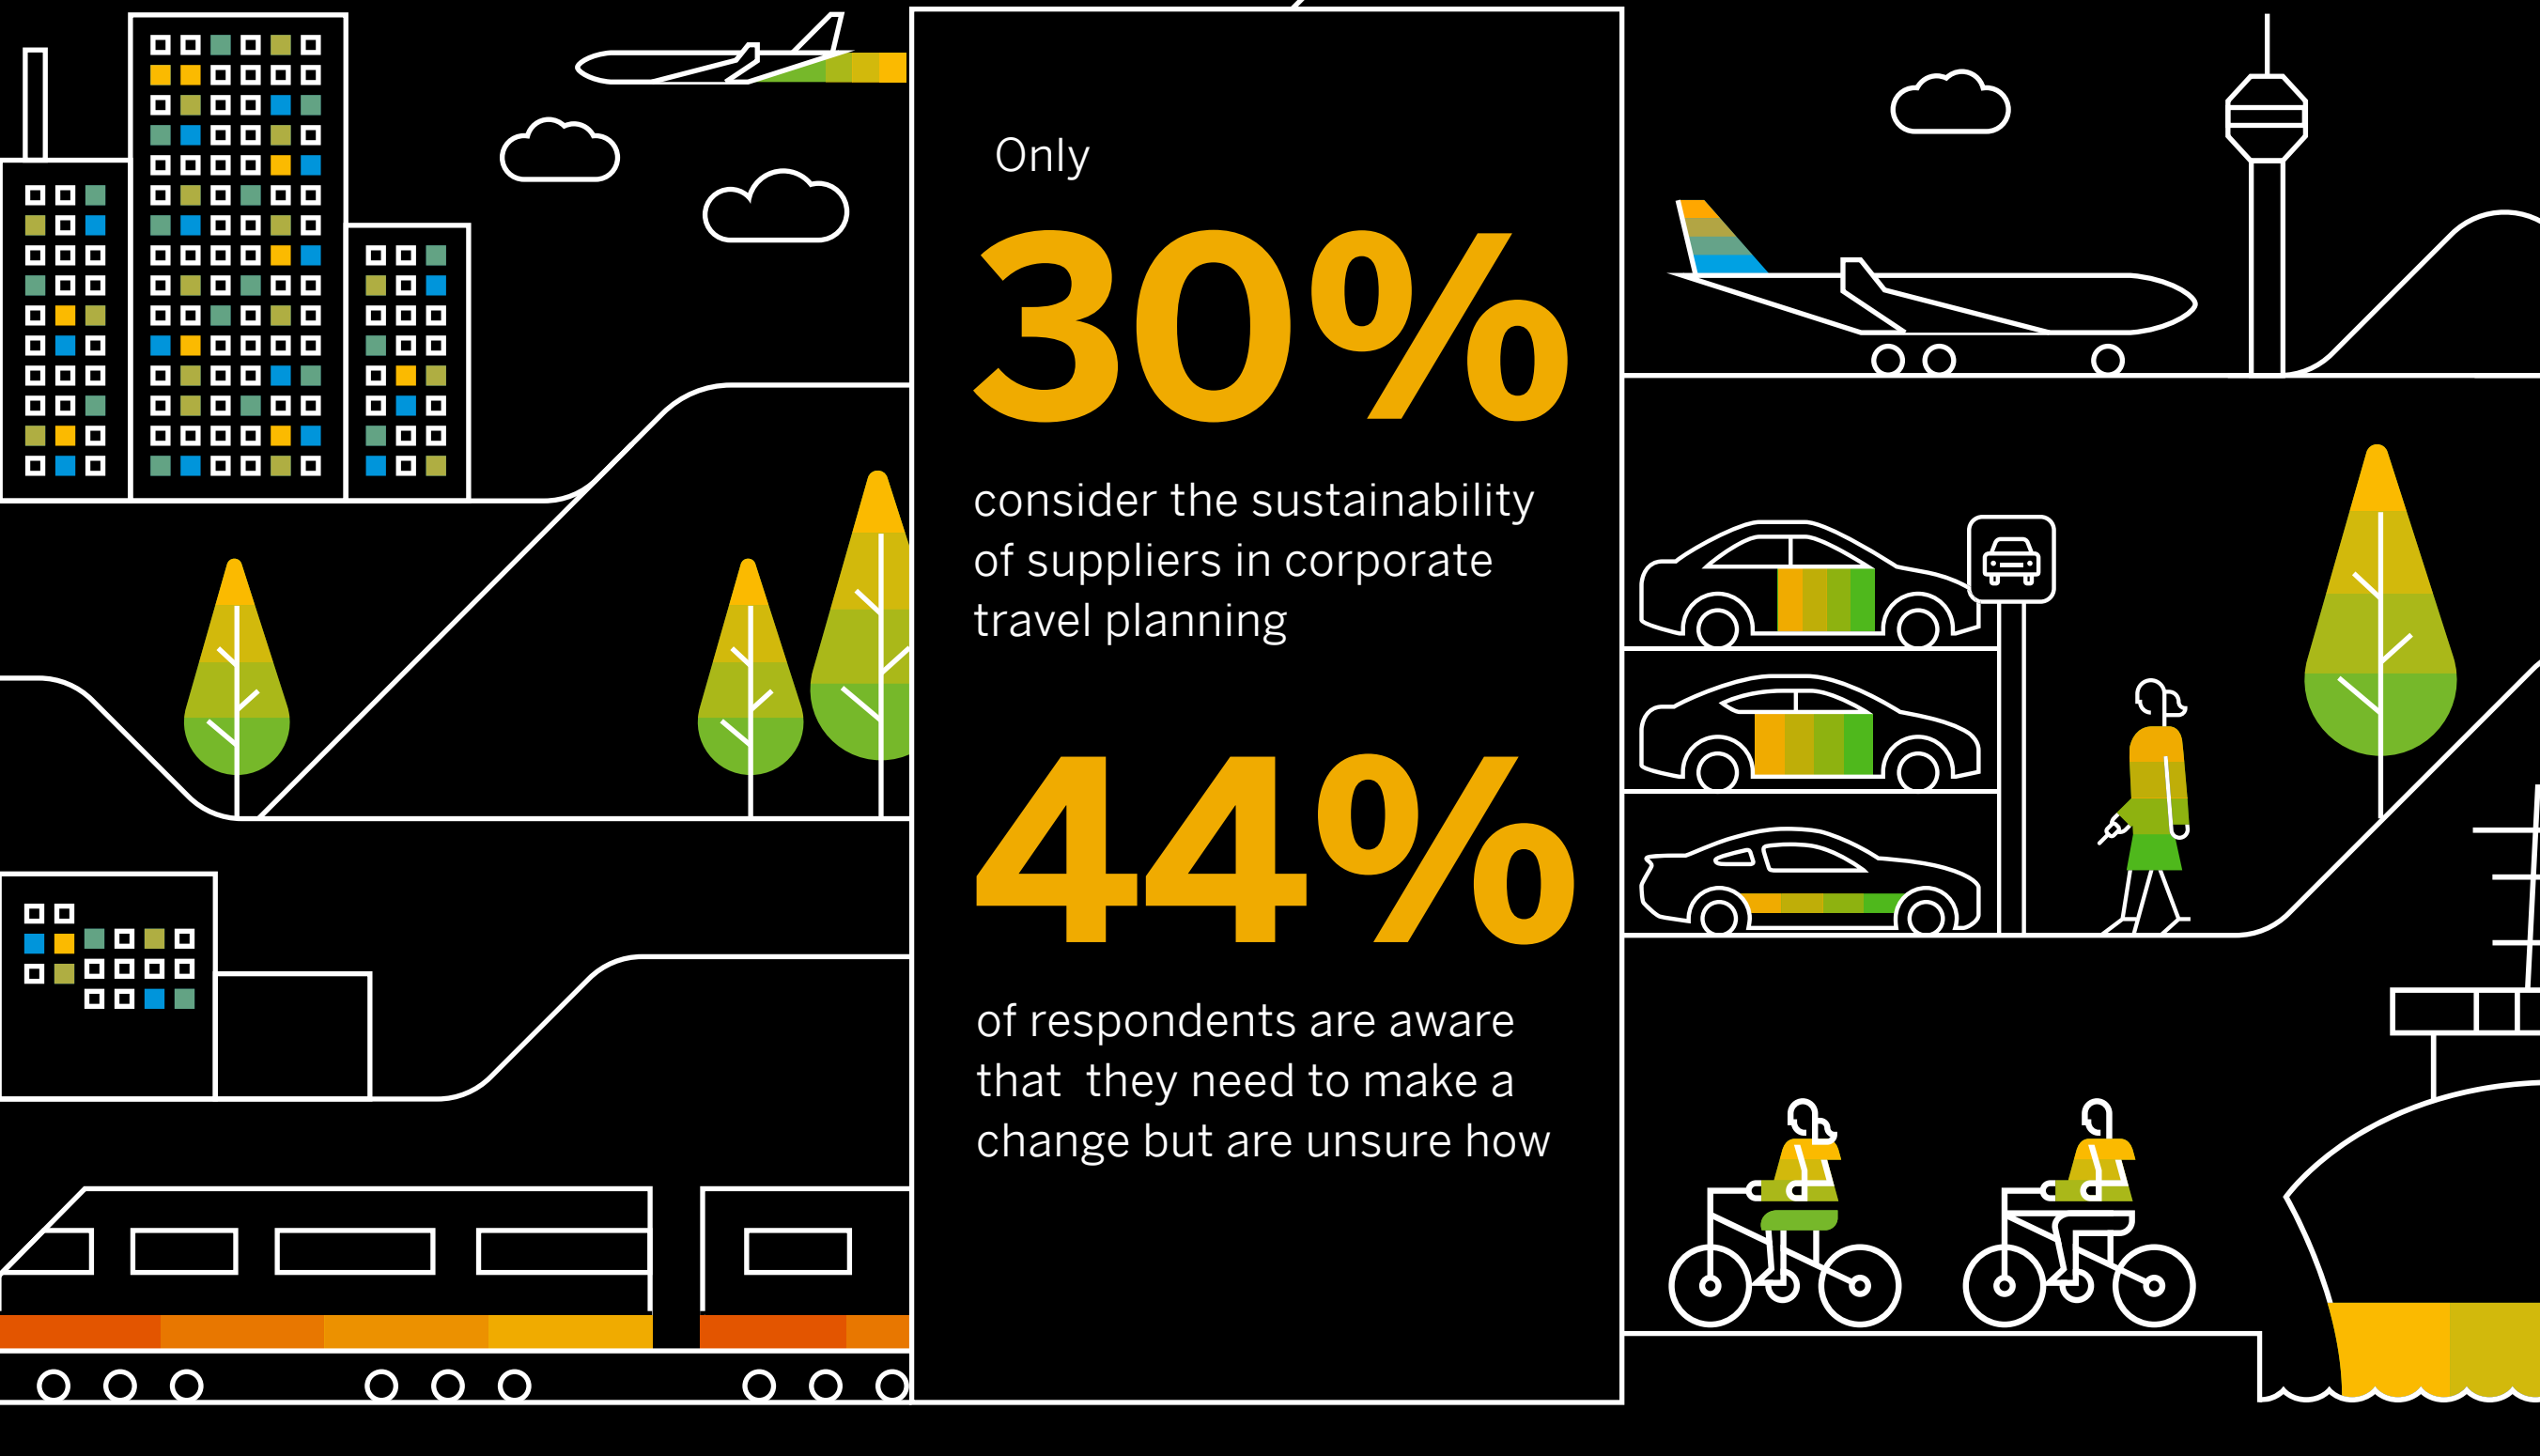

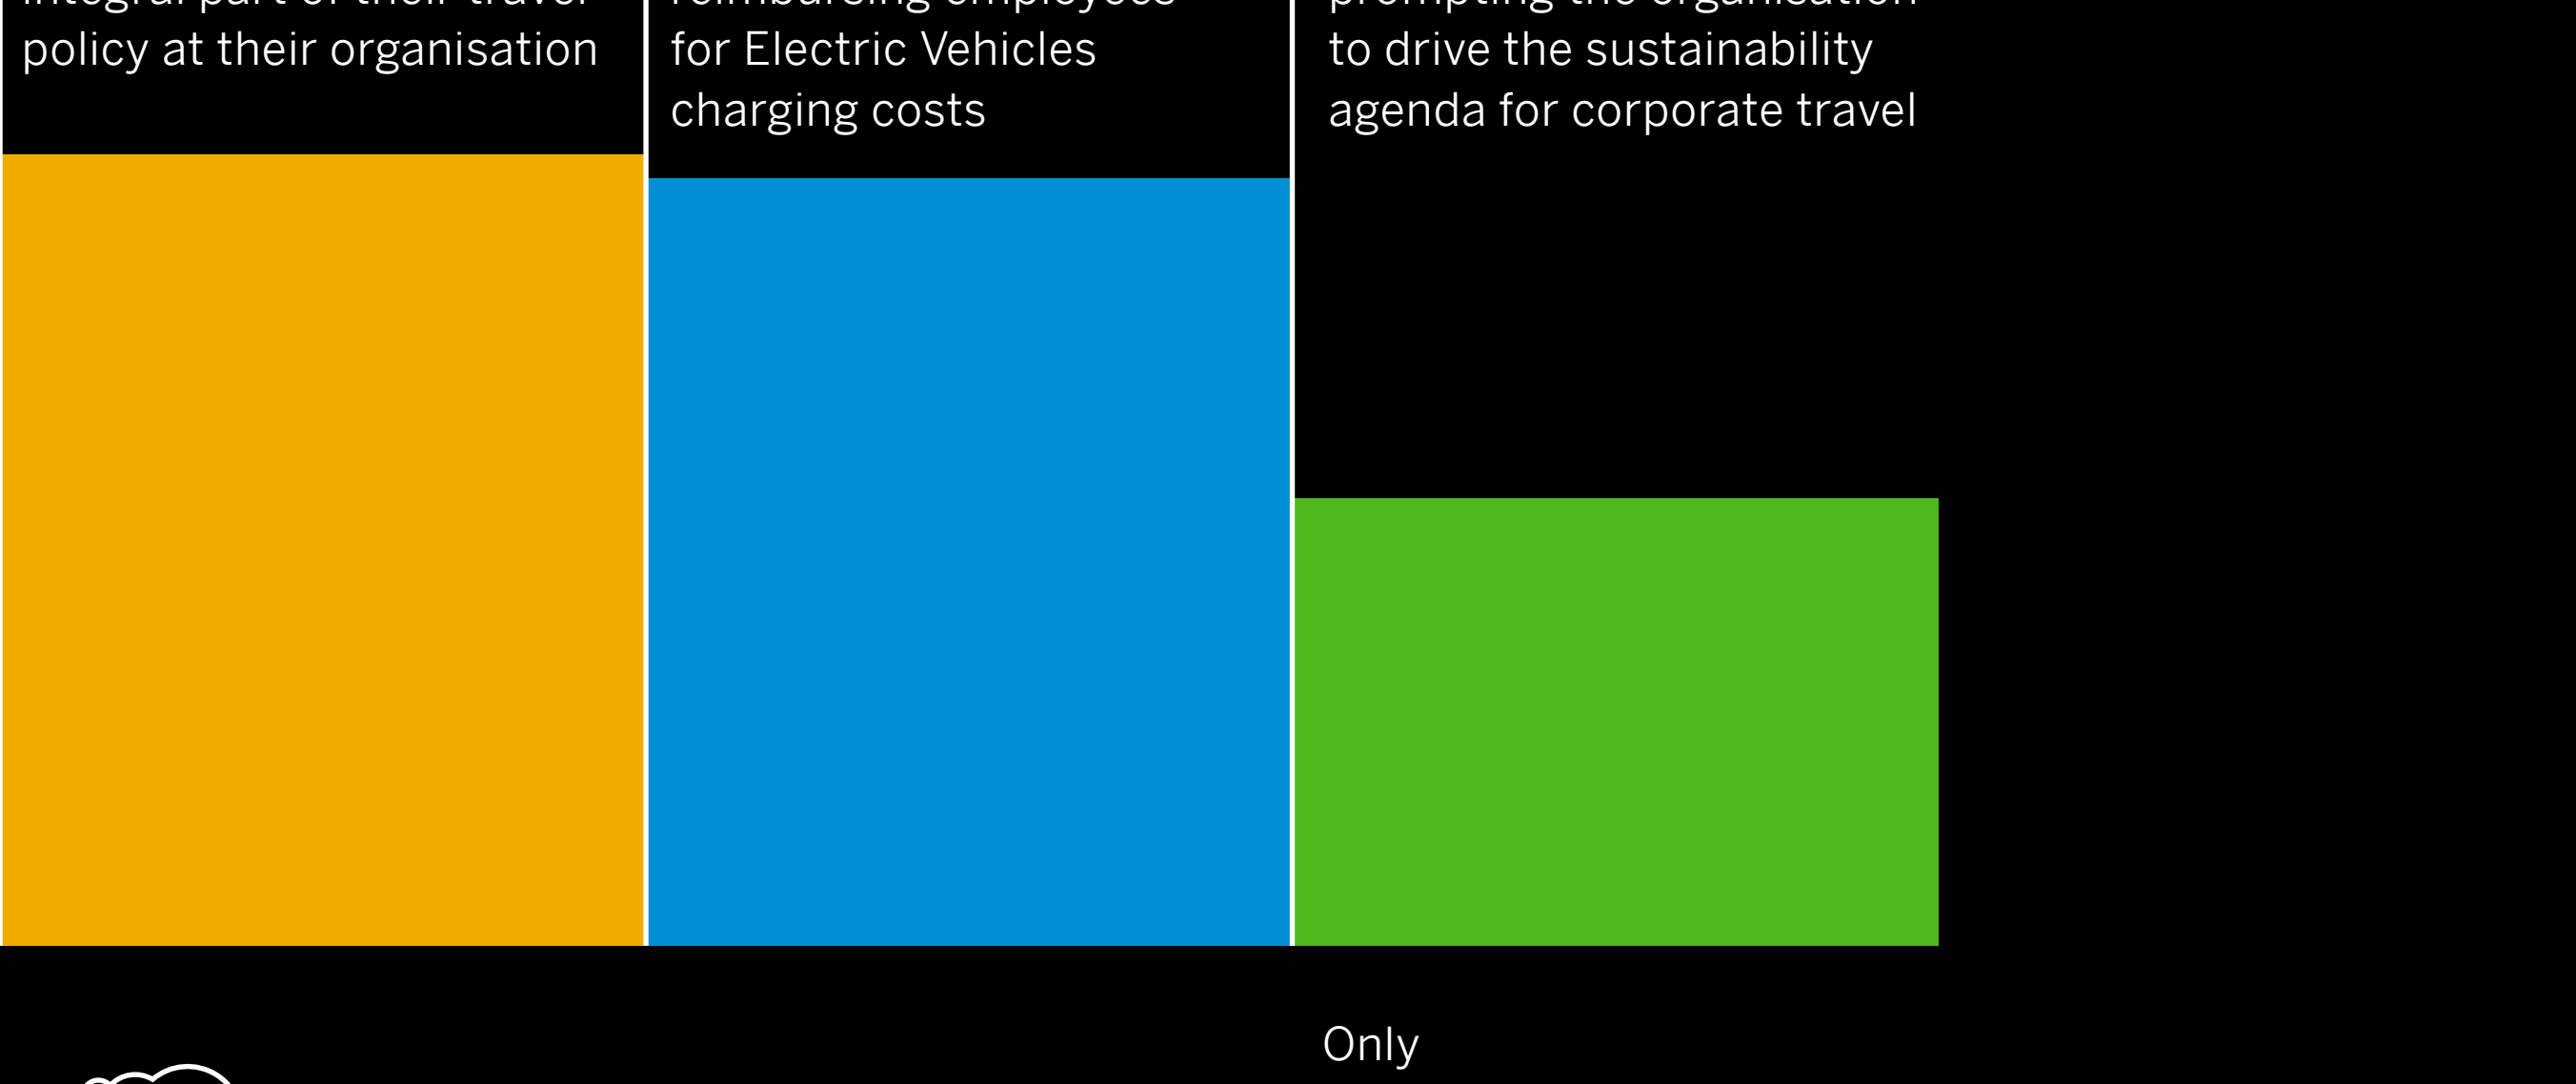

"We live and breathe sustainability"

**+14%** increase in respondents agree with the statement from 2020

### Spotlight on the Nordics

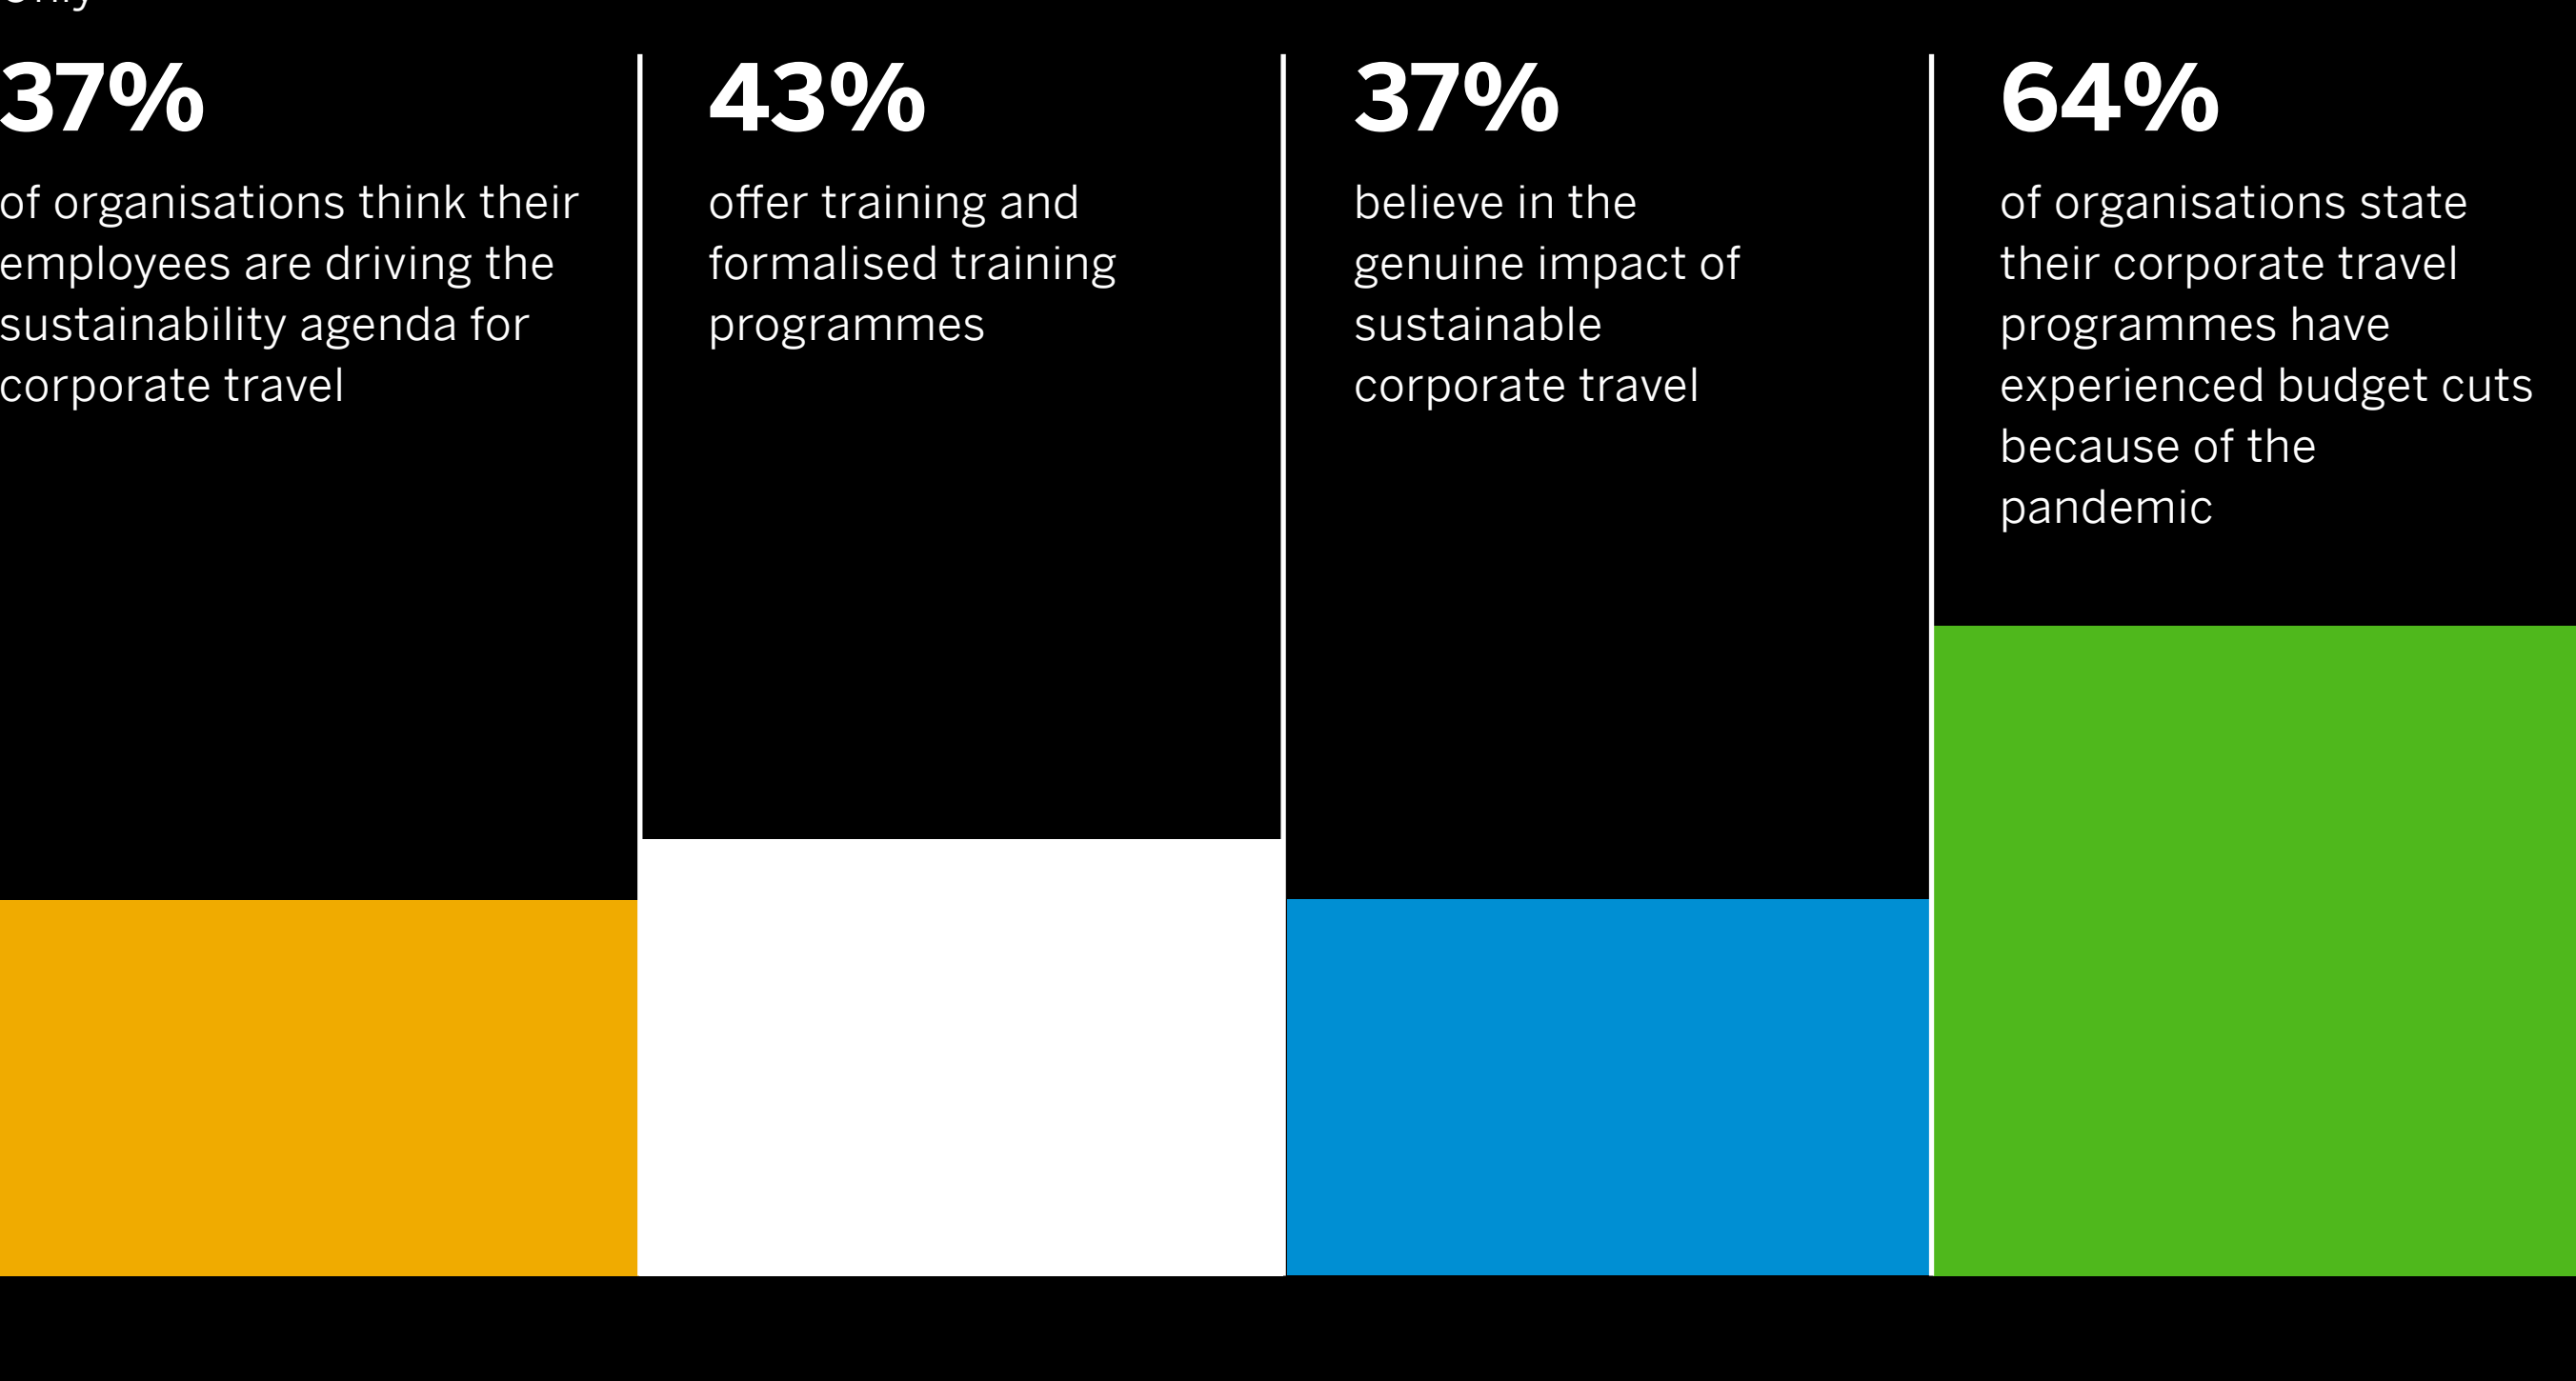

### Although sustainability is a priority for the corporate travel agenda, many organisations are yet to commit

### Lack of education, budget cuts and employee engagement are some of the factors stunting progress

Key barriers to developing a more sustainable corporate travel programme:

### Investing in technology will steer your business to sustainable success

### Discover where you rank

How sustainable is your business when it comes to travel?
